

Geography Knowledge Organiser **It's a Smugglers Life for Me** Year 6

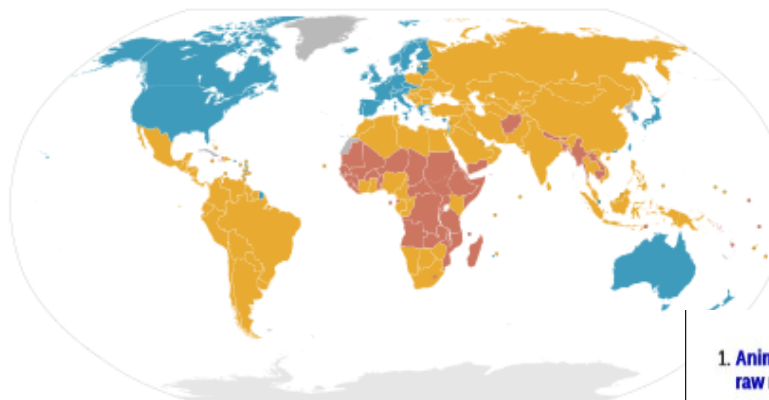

Our learning

In our Geography lessons we will learn about **trade** on a **local**, **national** and **international scale**.

We will think about why trade happens in different **locations**.

We will look at **trade routes** on maps and atlases.

We will learn about the effect trade has on people in different **environments** and what **‘fair trade’** means.

- Developed countries
- Developing countries
- Least developed countries

Manufactured goods

Raw Materials

1. **Animal-based raw materials.**

wool, silk, leather...

2. Vegetable-based raw materials.

wood, cork, cotton ...

3. Mineral-based raw materials.

clay, sand, marble,
iron ore ...

Information

Seas and oceans are used to **transport** goods.

Smuggling is a type of **trade** that is against the **law**.

Developed countries often **export** expensive manufactured goods.

Developing countries export more raw materials.

Fair Trade is a way of trading that helps farmers in poorer countries to be paid fairly for what they **produce**.

Cargo ship moving goods across
the sea.

Vocabulary

Trade-the buying and selling of goods or services

Trade routes-one of the sea routes used to transport goods

Goods— objects that people grow or make

Developing country— is one where most of its people live on a lot less money

Developed country— is one where most of its people have enough money to live on.
