

Science Knowledge Organiser Seasonal Changes (Term 3) Year 1

Our learning

We will learn about the four seasons in the year and how they change. We will learn about different weather.

Information

In England we have four seasons.

Each season has different weather.

Winter is colder and darker.

Summer is warmer and lighter.

Daylight hours are longer in summer.

As a scientist I will...

- Look carefully for changes.
- Record and talk about the weather.

Vocabulary

4 Season - The four parts of the year.
Day - Midnight to midnight is a full day.
Hot - A feeling of being very warm.
Warm - Feeling heated.
Cold - A feeling of being chilled.
Weather - What the sky and air like outside.
