

Science Knowledge Organiser **Animals including humans (Term 3)** **Year 2**

Our learning

We will be learning about animals including humans. We will think about similarities and differences between different animals.

carnivores

herbivores

Information

Animals can be **grouped** in different ways.

Carnivores are animals which only eat meat.

Herbivores are animals which only eat plants.

Omnivores are animals which eat meat and plants.

Humans have **5 senses**: **Touch** (hands), **sight** (eyes), **smell** (nose), **hearing** (ears) and **taste** (mouth).

As a scientist I will...

Group animals using **scientific** names.

Use **observations** (what you see) to explain **groupings**.

Vocabulary

Amphibian - An animal that can live in and out of water (e.g. a frog)

Reptile - animal with scales (e.g. a snake)

Fish - A type of animal which lives in water

Bird - An animal with wings and a beak.

Mammal - An animal with hair and that has live babies (e.g. humans)

omnivores
