Plants (Term 6)

Year 1

Our learning

We will continue to learn about plants.

We will learn about what helps a

plant to grow.

Information

Plants grow and get bigger over time.

Plants need water and light to grow.

Plants need the right temperature to grow.

Vocabulary

Growth - When something gets bigger.

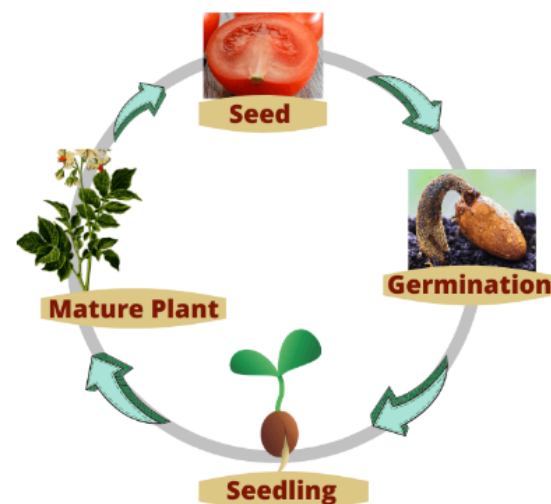

Light - Comes from the sun to

help plants to grow.

Life cycle - Different stages in a plant's life.

Bulb - A bud that grows into a plant.

Seed - Grows into a plant.

The life cycle of a plant

As a scientist I will...

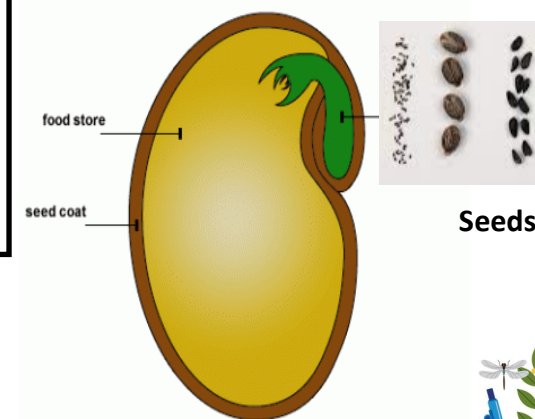

Say what might happen (predict).

Make observations (look carefully).

Answer a scientific question.

Bulbs

Seeds

A close up of a seed
