

Computing at Oakwood

Curriculum Materials:

Our curriculum is based upon: The Aurora curriculum – linked to the Purple Mash scheme of work

Curriculum Time:

We dedicate approximately one hour per week to computing lessons.

Computing Overview

Our computing curriculum focuses on a progression of skills in digital literacy, computer science, information technology and online safety to ensure the children become competent in safely using, as well as understanding, technology. Online safety is an especially integral element of our curriculum, with regular units and recaps included throughout each year group. A dedicated 'online safety week' takes place each year, with year group appropriate activities taking place in each class, as well as a themed assembly for all the children. Computers are also used to support other curriculum areas, such as with our Times Tables Rockstars application for maths.
