RE Overview

The Religious Education curriculum is taught through three key concepts which the children return to in each of the units they are taught. These concepts underpin the teaching, allowing children to explore key themes across each religion studied. These concepts are 'making sense of belief', 'understanding the impact' and 'making connections'. Children learn about a range of different religions to foster understanding, empathy and tolerance in all our children. At the end of each unit, children answer a concept question to demonstrate their understanding of the unit.
